Excellence in Fragrance Diffusion

PACK BUILDING

CATEGORY «INVISIBLE SOLUTIONS»

Scented ventilation for very large spaces

The Pack Building system is installed in ventilation or air conditioning ducts to diffuse fragrances in very large spaces from a single point of diffusion.

This system comprises an R'Pulse 500 pump that can cover up to 1,500 sq. m. It is used with a 2.5 L fragrance bottle that has a lifespan of 4 months. Totally invisible, Pack Building is easy to use thanks to its intuitive interface and programmability (intensity and duration of diffusion).

- Homogenous diffusion with no droplets released
- Invisible system
- Suitable for spaces up to 1500 sq. m.
- Ideal for office buildings, building lobbies and shopping malls
- Diffusion technology based on micro-nebulization
- Made in France
